- **Adharva Institute of Commerce**  
A React-based web app for Corbiz Solutions' Commerce Institute, integrating Contentful for dynamic content management
- **Find Me A Dog**  
A personal project to learn and leverage the power of Gemini AI and GSAP library.
- **postalcode-global**  
Postal code validation and location mapping NPM library based on postal codes and country codes

## CERTIFICATIONS

- AWS Cloud Practitioner

## PROFILE

Full-stack developer with **5 years** of experience contributing to fast-growing startups and large-scale enterprises. Currently supporting **identity management** and digital platforms for **the largest sports organization in the U.S.** Proficient in building scalable applications using **React, React Native, TypeScript, Node.js, and Next.js**. Adept at working with **monorepos**, shared services, and **CI/CD** pipelines. Passionate about solving complex problems, improving user experiences, and exploring the potential of **AI** through hands-on projects using **OpenAI** and **Gemini** APIs.

Let's connect. I'd love to hear what you're building.

## PROFESSIONAL EXPERIENCE

### ○ SOFTWARE ENGINEER

**APPLY DIGITAL ULC** : 2022 - Present

Client overview: The largest sports organization in US

Tech Stack: **Nextjs | React Native | Reactjs | Typescript | Nodejs**

- Maintained and enhanced the identity platform used across 20+ digital properties and media networks.
- Joined as a React Native specialist to support mobile apps during high traffic events including live streaming.
- Led integration of third-party paywall service, now a key part of monetization across platforms.
- Developed and maintained backend services using Node.js and Restify.
- Ensured quality via Postman test collections, unit tests, GitHub workflows, and API documentation.
- Set up and executed performance load testing using k6.
- Implemented authentication mechanisms using OIDC and Single Sign-On (SSO) standards.
- Proactively identified and resolved critical issues during high-stakes live events.
- Added and maintained API endpoints and developed automated workflows to streamline service operations.
- Automated authentication checks using Playwright and GitHub Actions, integrating results with Postman for API monitoring
- Collaborated with cross-functional teams to meet accessibility requirements and improve user experience.

## EDUCATION

- PG CERTIFICATE IN MOBILE APPLICATIONS DEVELOPMENT  
2021 Jan - 2021 Dec  
George Brown College, Toronto
- PG CERTIFICATE IN EMBEDDED SYSTEMS DEVELOPMENT  
2020 - 2021  
Fanshawe College, London, ON
- BACHELOR OF ELECTRONICS AND COMMUNICATION ENGINEERING  
2013 - 2017  
Federal Institute of Science and Technology

## LANGUAGES

- English
- Hindi
- Malayalam

## ○ REACT NATIVE DEVELOPER - INTERN

**WALLETIFAI** : 2022 Feb - 2022 Jun

Client overview: Personal Finance Management App

- Designed and implemented user interface components for JavaScript-based web and mobile applications in React Native framework..
- Improve front-end performance by eliminating performance bottlenecks and creating front-end modules with maximum code reusability and efficiency.
- Leverage Restful APIs for deep integrations with both Android and iOS.

## ○ MOBILE APPLICATION DEVELOPER - CO-OP

**NEWSLYME APP** : 2021 Sep - 2021 Dec

Client overview: Audio News and Content Delivery App

- Worked with the research and development team of Newsly Technologies Inc.
- Worked on React Native, Python, Redux, AWS and related technologies.
- Worked in collaboration with the team and contributed works to develop new features.

Driven by curiosity and a strong ownership mindset, I thrive on building reliable systems and user experiences that scale. I actively seek out challenges that push me beyond my comfort zone—whether it's debugging complex issues, improving platform performance, or learning a new stack. I'm excited to bring this mindset to my next impactful role.
